

RNU1 24-Pin Recloser Control Testing Package

For testing of 24-pin Schneider/Nu-Lec recloser controls

The RNU1 24-Pin Recloser Control Testing Package serves as an accessory to CMC test sets¹ for simple and comprehensive testing of 24-pin Schneider/Nu-Lec recloser controls such as:²

- > Schneider ADVC
- > Nu-Lec PTCC

The RNU1 24-Pin Test Interface is built with all components necessary to make a direct connection between the device to be tested and the CMC simulating the switch end with all of its currents, voltages (up to six phases), and status signals.

Quick manual tests are easily performed with the CMControl R, our front panel control unit for CMC test sets. Intuitive software tools and test cable presets guarantee easy and successful tests.

For automated testing, free sample test plans for the CMC operating software³ can be downloaded from our website.

Ordering Information

Description	RNU1 24-Pin Recloser Control Testing Package for testing of 24-pin Schneider/Nu-Lec recloser controls Includes: 1 x RNU1 24-Pin Test Interface
Order Number	VEHZ1166
