

# RCS1 26-Pin Recloser Control Cable Package

For testing of 26-pin style Kyle NOVA-TS/STS triple-single recloser controls

The RCS1 26-Pin Recloser Control Cable Package serves as an accessory to CMC test sets<sup>1</sup> for simple and comprehensive testing of 26-pin style Kyle NOVA-TS/STS triple-single recloser controls such as:<sup>2</sup>

- > Cooper Form 5
- > Cooper Form 6
- > Schweitzer - SEL651R

The RCS1 26-Pin Cable is built with all components necessary to make a direct connection between the device to be tested and the CMC simulating the switch end with all of its currents, voltages, and status signals. The RXB1 Binary Extension Box provides additional binary output signals for simulating circuit breaker status contacts for each phase.

Quick manual tests are easily performed with the CMControl R, our front panel control unit for CMC test sets. Intuitive software tools and test cable presets guarantee easy and successful tests.

For automated testing, free sample test plans for the CMC operating software<sup>3</sup> can be downloaded from our website.

## Internal voltage sensor option

If the recloser is equipped with the internal voltage sensor option, we offer the RIB1 Isolation Box (VEHZ1160). It can output accurate voltages of up to 10Vpk for simulating those sensors. The RIB1 is not included in this cable package.

## Ordering Information

Description	
	RCS1 26-Pin Recloser Control Cable Package for testing of 26-pin Kyle NOVA-TS/STS triple-single recloser controls
	Includes: 1x RCS1 26-Pin Cable, RXB1 Binary Extension Box
Order Number	VEHZ1163

<sup>1</sup> CMC 356, CMC 256plus, CMC 353

<sup>2</sup> Non-exhaustive list of supported recloser controls

<sup>3</sup> Test Universe PC software; OMICRON Control Center (OCC) required

**OMICRON** is an international company serving the electrical power industry with innovative testing and diagnostic solutions. The application of OMICRON products allows users to assess the condition of the primary and secondary equipment on their systems with complete confidence. Services offered in the area of consulting, commissioning, testing, diagnosis, and training make the product range complete.

Customers in more than 140 countries rely on the company's ability to supply leading edge technology of excellent quality. Broad application knowledge and extraordinary customer support provided by offices in North America, Europe, South and East Asia, Australia, and the Middle East, together with a worldwide network of distributors and representatives, make the company a market leader in its sector.
