

OMICRON Primary and Secondary Testing Seminar

September 18–19, 2018
Kigali, Rwanda

Invitation

OMICRON is an international company providing innovative solutions for primary and secondary testing combining innovation, leading edge technology and creative software solutions.

The 2-day Primary and Secondary Testing Seminar will include one day of theoretical presentations, followed by a live demonstration on a power transformer with the TESTRANO 600 on the second day.

Date	September 18–19, 2018
Venue	Hôtel des Mille Collines, Kigali
Seminar Topics	Power Transformer Testing & Circuit Breakers Testing
Language	English

The OMICRON seminar is free of charge, including lunch and therefore registration is vital. The registration form is attached for your convenience.

We would welcome the chance to talk with you personally at our seminar when hopefully we can answer any questions you may have regarding our broad product and service portfolio.

If you are aware of any of your colleagues who are likely to have an interest in OMICRON test equipment, please feel free to duplicate the registration form.

However, please be aware that places are limited and early registration is advised to avoid disappointment.

My colleagues and I very much look forward to meeting you!

OMICRON electronics GmbH

Jan Olov Ankartross
Area Sales Manager
