

Expand your horizons 
with OMICRON testing solutions

Seminar on
Partial Discharge Monitoring Simplified by OMICRON

September 19, 2019
Doha, Qatar

Invitation to attend

We have the pleasure to invite you to the OMICRON seminar taking place in Doha, Qatar. As an international company that provides innovative solutions for power system testing and monitoring, we have a wealth of knowledge to share.

Date	September 19, 2019
Location	Crowne Plaza - The Business Park Ru'a Ballroom Airport Road Doha, Qatar
Language	English

Who should attend

Asset manager and electrical maintenance managers who possess basic knowledge of partial discharge testing involved in Electrical Operation, Maintenance, Testing and Commissioning.

Why you should attend

Partial Discharges are in many cases the preliminary stage before a total failure of the asset

- > Plan a better maintenance strategy
- > Get an accurate condition of your asset health
- > Be part of dynamic knowledge and information exchange with industry peers
- > Have direct interaction with OMICRON experts

We welcome the chance to talk with you personally at our seminar when hopefully we can answer any questions you may have regarding our broad product and service portfolio.

If you are aware of any of your colleagues who are likely to have an interest in this OMICRON seminar please feel free to duplicate the registration form.

We are looking forward to meeting you in Doha.

Your OMICRON Team
