withOMICRON testing solutions

Seminar on
Advanced Power System Testing & Diagnostics

August 21, 2018
Kochi, Kerala

Invitation

We have the pleasure to invite you to the OMICRON seminar taking place in Kochi, Kerala. As an international company that provides innovative solutions for power system testing and monitoring, we have a wealth of knowledge to share.

Date	August 21, 2018
City	Kochi, Kerala
Location	Kochi Marriott Hotel Lulu International Shopping Mall Edappally, Kochi, Kerala
Language	English

Who should attend

Engineers from electrical utilities, industrial plants, equipment manufacturers and service companies involved in the commissioning, maintenance and troubleshooting of power transformers and protection systems.

Why you should attend

- > Gain knowledge and skills to perform and operate diagnostic tests
- > Be part of dynamic knowledge and information exchange with industry peers
- > Have direct interaction with OMICRON experts

We welcome the chance to talk with you personally at our seminar and hopefully we can answer any questions you may have regarding our broad product and service portfolio.

If you are aware of any of your colleagues who are likely to have an interest in this seminar please feel free to duplicate the registration form.

We are looking forward to meeting you in Kochi.

Your OMICRON Team

Registration

The seminar is free of charge and therefore early registration is vital. Please complete and return the registration form overleaf. Spaces are limited so please book early to secure your place.
