# INFORMATION FOR THE **OMICRON ACADEMY**

The OMICRON Academy training courses are built around real testing situations and are ideal for technical staff from electrical utilities, industrial plants, equipment manufacturers, and service companies.

Contents range from gaining knowledge of assets and applications, fully utilizing the test equipment, and applying efficient test procedures to interpreting test and measurement results. Join our in-person classes to get hands-on experience with our 10.5MVA power transformer, circuit breakers, protection relay room, recloser wall, distribution network, and more.

Benefit from professional courses with expert trainers, full-scale training equipment, effective methodology, and excellent customer care. We look forward to seeing you in person or online!

## **OMICRON Academy services**

- > Scheduled In-Person and Virtual Training Classes
- > Customized Training Classes at a location of your choosing or in our OMICRON Tester's Paradise
- > LIVE Webinars
- > Recorded On-Demand Webinars
- > Participation Certificates for Personal Development Hours (PDH), NETA CTDs, and for some classes, IACET CEUs
