with OMICRON testing solutions

OMICRON Seminar on
The Art of Automated Testing

October 23, 2019
Lahore, Pakistan

Invitation to attend

We have the pleasure to invite you to the OMICRON seminar taking place in Lahore, Pakistan. As an international company that provides innovative solutions for power system testing and monitoring, we have a wealth of knowledge to share.

Date October 23, 2019

Location NTDC, TSG Office
 Kot Lakhpat
 Lahore, Pakistan

Language English

Who should attend

Protection engineers, SCADA engineers and protection management who possess basic knowledge of automated testing involved in Power Generation, Power Transmission, Power Distribution, Service Providers and Consultants.

Why you should attend

Testing protection system became more complex and finding a suitable testing technique is a challenge

- > Understand the concept of testing for IEC 61850
- > Gain knowledge on IEC 61850 testing requirements and solutions
- > Be familiar with the latest technology on automatic protection testing
- > Know how to improve the quality of your secondary testing
- > Know how to save your time and efforts with the highest quality in secondary testing
- > Easier testing independent of protection complexity

This is a certified event.

We welcome the chance to talk with you personally at our seminar when hopefully we can answer any questions you may have regarding our broad product and service portfolio.

We are looking forward to meeting you in Lahore.

Your OMICRON Team
